# System Reports

There are many student reports that can be run and accessed through the "Students" menu in the top navigation when you sign in to RightPath™

To run a report, the user should:
1. Populate the report by selecting a **Class Roster**, a student, or group of students.
2. Select the dates to run the report.
3. Select the report and any of other filtering options desired.
    a. Choose a report.
    b. Choose to run for all classes, selected classes, or "my classes."
    c. Choose to only show assignments that have been completed or all assignments.

Report Descriptions

Detailed by Date

This report displays the lessons worked on during the chosen time frame. It is first broken down by student and then each login session for the RightPath™ platform. It will track each time an assignment is clicked and report how much time was spent on the lesson. This report will display all login session data and indicate if the assignment was submitted as complete.

Suggested Uses: Attendance, tracking, lessons being worked on/time spent in blended classrooms, monitoring time spent on assignments at home.

Simple by Class

This report looks at each class selected and lists the students enrolled, how many assignments worked on or completed during the chosen time frame, and total time spent on the assignments.

Suggested Uses: Overview of a class to see how many lessons are being completed for all the selected students

Assignment Report

This is a simplified report that is broken up by student and lists all the students' classes and how many assignments were worked on or completed during the chosen time frame. It also will list how much total time was spent on the lessons.

Suggested Uses: Simple view of number of lessons worked on/completed by student during a particular time frame.

Detailed Assignment Report

This report is similar to the regular assignments report, but it shows more information. For each class, it lists the name of each lesson worked on or completed and how much time it took to complete. For this report, each student will begin on a new page.

Suggested Uses: Provides detailed tracking of assignments worked on or completed for each selected class, including time spent on each assignment.

Attendance Report

Krystle Jones (kjones)   Date: 8/1/2010 - 7/31/2011
